

## Govt Inc

Some people believe there should be one world government. Others believe that governments should be run as one would run a business. They are both wrong. Govt Inc is a science fiction / fantasy / action adventure about how one man of faith, can literally change the world. Mose is a dimension traveler, supporting a government that operates from one set of rules only. Those rules are known as the Principles of Profitability. He lives a better life than most, but senses that something is not right. He finds allies. Allies find him, and the adventure begins.
