

This lavishly illustrated book provides an unusually accessible approach to geometry by placing it in historical context. With concise discussions and carefully chosen illustrations the author brings the material to life by showing what problems motivated early geometers throughout the world. Geometry Civilized covers classical plane geometry, emphasizing the methods of Euclid but also drawing on advances made in China and India. It includes a wide range of problems, solutions, and illustrations, as well as a chapter on trigonometry, and prepares its readers for the study of solid geometry and conic sections.

Saint-Francois de Sales, Humaniste Et Ecrivain Latin (Religion) (French Edition), Dictionary of Plant Science, History of La Salle County, Illinois : its topography, geology, botany, natural history, history of the Mound builders, Indian tribes, French ... : with an appendix, giving the present st, Wrath of the Lamb (Lias Italian Art Theft Adventure Series Book 8), Choosing Forgiveness: Turning from Guilt, Bitterness and Resentment Towards a Life of Wholeness and Peace, Topo Topo e le sue magicose avventure a Ostia: ...e un dono di Stefano e Floriana e Ylenia e Noemi (Italian Edition),
