

I enthusiastically embrace the fabulous new discoveries of astrophysics, but I do not want to stop there. I want these discoveries to swim in our imaginations, to open our hearts to new ways of thinking and feeling about life, about men and women, about catastrophes and rituals. I want us all to hear how the music of the spheres resonates with the music of our hearts. With these words, Dr. Fiorella Terenzi launches readers on a thrilling, emotional and empowering journey that extends from the farthest reaches of space to the innermost secrets of the soul. No one can better serve as inspirational teacher and guide on this very personal expedition to humanity's place in the universe. Internationally renowned both as an astrophysicist and a recording artist, Dr. Terenzi performed the first experiment in acoustic astronomy--translating radio waves from distant galaxies into audible sound. She leads a new movement blending science and art, knowledge and emotion. Dr. Terenzi shows that most of us have heretofore contemplated only portions of the majesty of the cosmos. In HEAVENLY KNOWLEDGE, she presents clear and accessible scientific facts, then goes much farther she also makes unique connections between the way we live our daily lives and the vast universe that surrounds us. Through her telescope, Dr. Terenzi brings to life a sensual universe where comets roar through space, spreading life like the process of human reproduction; the hidden galactic core becomes a metaphor for self-knowledge; and dying stars act out great truths of being, nothingness, and rebirth.

Sweet Mercy, Ben Draws Trouble, Praise and Worship: Heavens Address, How plants are trained to work for man Volume 6, Educacao Ambiental nas Aulas de Quimica: Um Compromisso com a Cidadania (Portuguese Edition), The Fish Who Could Talk, Renueva tu corazon: Se como Cristo (Coleccion Teologica Contemporanea: Estudios Ministeriales) (Spanish Edition), Hanging in the Balance, May Flies and Midges of New York. Third Report on Aquatic Insects. a Study Conducted at the Entomologic Field Station, Ithaca, N. Y,
