

## Simple Lessons Learned Along The Way

Often times we move through life taking each day as it comes, rarely looking at our situations, much less evaluating them. This fast-reading, delightful book takes a brief look at life lessons that have presented themselves along the way. It may be in an airport, driving a vehicle, watching a movie just about anywhere. God invades our senses and reaches out to us through situations and circumstances. Some call it a God-thing or a God-moment, but they're just run of the mill times that we recognize the hand of God. Perhaps it's been there all along, but this time, this specific time, we become aware; or maybe He attacks our state of being unaware of what has always been available? Many times I have walked passed mirrors completely unaware of myself or the reflection. Other times I stop and take a look. Likewise, many times God is reaching out, and I'm passing unaware that He wants me to stop and reflect. I've missed an important encounter with Him. What follows in this book are some encounters I didn't miss. And maybe they'll help you along your way, give you pause to reflect, and meet God somewhere in the process.
