

In Search of the Human Soul

With our focus on the fast-paced world around us, we have forgotten how to develop a relationship with our inner world. *In Search of the Human Soul* shows us how to break down the defenses that we have built up around our soul so that we can connect with ourselves, with other human beings, and with God. You will see how to uncover the spark of God that is within each one of us and be able to recognize that spark in others. This is a hands-on book for the religious & nonreligious alike. Its powerful ideas transcend the boundaries of traditional religions so that it speaks to each of us. In Western culture we tend to ignore our souls until the time of death. Each of us can experience the soul today, & therefore directly experience God, if we are willing to make the effort. Guindon outlines simple steps that you can take to break down the barriers that you have built around your soul.
