Most of my life was similar to a caterpillar; it was ugly, depressing, and confusing. But God sent me a butterfly that would forever change my perception of Gods love. Many people fail to understand how deep Gods love can go; I failed many times also. However, after many trials and traumatizing events occurred, God left me with no choice but to believe he loves me deeply. In *The Brown Butterfly*, author Dondre M. Jenkins II reveals shocking details of events throughout his life, which God supernaturally changed. The most important being a sign from heaven in a form of a butterfly.
