

Catalogue of Plants: Native and Naturalized, Collected in the Vicinity of Cincinnati, Ohio, During the Years 1834 1844 (Classic Reprint)

Excerpt from Catalogue of Plants: Native and Naturalized, Collected in the Vicinity of Cincinnati, Ohio, During the Years 1834 1844

The following Catalogue has been arranged and printed in accordance with instructions left with me by my late brother, Thomas G. Lea. His Mss. and Herbarium were placed in the hands of Mr. W. S. Sullivant, who kindly prepared the whole, with the exception of the Fungi, determined by the Rev. M. J. Berkeley, and the Lichens by Mr. Edward Tuckerman. My brother's son, Mr. James M. Lea, has seen to its progress through the press, under the supervision of Professor Asa Gray of Cambridge. By the kindness of these gentlemen, his wishes have been fully carried out, and I have every confidence that this Catalogue will possess all the utility desired by him. My brother, in his instructions, also desired to acknowledge his obligations to Sir W. J. Hooker and Mr. W. Wilson, for their assistance in authenticating the species of mosses. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
