

Taxonomy and Ethnobotany of Satlasana Forest, District Mehsana, Gujarat

The NGR is rich in floristic diversity and traditional knowledge. The vegetation of the area is pertaining to the dry deciduous forest types found in the Indian sub continent. This attempt was made up to prepare flora and documentation of Ethnobotanical data of the area. This book serves as the reference materials for the students and researchers in the field of plant Taxonomy, Ethnobotany and Ayurveda.
