

The Crowd-Sourced Marriage

Whatever happened to arranged marriages? In a world of hookups and breakups, Sharla Langston wondered how she was going to meet a decent date. She enlisted the help of her friends and family in an adventuresome experiment where she simply asked her crowd to help her find a perfect-for-her partner. In this engaging and often hysterical memoir, Sharla's story will help you to tap into the depth and breadth of love from the people who love you most and have your best at heart.
