

Two Parallel Streams Of Bibles

The true is when we look at the books for the Greek Critical Text, Septuagint (LXX) and Jeromes Latin Vulgate. You will get an inside look at the Scriptures; you really will see what they are doing to the true Bible. You can read all you want to but until you look at the books, you will not know the difference. This isnt a new problem. Churches used to read the scriptures in Latin, leaving only the churchs elite to understand, not the common people. Let us not forget the greatest of all revolutions, the 16th-century religious revolt known as the Reformation. The amount of Greek that is corrupting your Bible is no more than around 5% percent. The rest is fine. Which words are they corrupting? Thats the big question! You will find out the truth about the Greek and how they are dishonest about telling the truth. Really there isnt any more scripture to be found in this time in our history; only some fragments of pieces of the scriptures. What are they doing? They are cooking the books and telling us things that are not truthful and I will expose these people for what they really are, an eye opening event. Keywords: Bible, Religion, Biblical Studies, Bible Study Guides, History and Scholar Research.
