

Water resources data

This book was digitized and reprinted from the collections of the University of California Libraries. It was produced from digital images created through the libraries mass digitization efforts. The digital images were cleaned and prepared for printing through automated processes. Despite the cleaning process, occasional flaws may still be present that were part of the original work itself, or introduced during digitization. This book and hundreds of thousands of others can be found online in the HathiTrust Digital Library at www.hathitrust.org.

Water Measurement Information System Water resources information, from the U.S. Geological Survey (USGS). Go to USGS Current Water Data for the Nation. Use a form: Select a **Annual Water Data Report - USGS North Carolina Water Science** Accurate and comprehensive water resource data are critical to planners and Major Water Resource Data Collection, Management and Distribution Programs. **Water Resources Data - Texas Water Year 1999 - Publications - USGS Oregon Surface Water Supply Index** - (opens in new window) The Natural Resources Conservation Service provides maps and data detailing the surface water **USGS Water Data for the Nation** Water Resources Data - Texas Water Year 1999. Volume 6. Ground Water Water Data Report TX-99-6. By S.C. Gandara and D.L. Barbie **Water Resources Department Oregon Surface Water Resources** This site describes the major surface water GIS data sets and maps commonly available for Minnesota, along with links to important related non-GIS data **Water Resources Data System Database - Disclaimer** Water Resources Data System - Sitemap. Map-based retrieval of NWS and CoCoRaHS climate data Climate Division Precipitation Charts and Data **Images for Water resources data** USGS Water Data for the Nation: Water-resources data collected at approximately 1.5 million sites in all U.S. States and Territories. Primary categories are Real-time Data, Site Information, Surface Water, Groundwater and Water Quality. Spatial data and metadata created for water assessment and research projects. **Water Resources Data - World Bank Group** DWR has many programs and data tools to collect and disseminate information on water resources. All Water Data Topics **State Water Resources Control Board - Data and Databases** The Water Resources Data System (WRDS) is a clearinghouse of hydrological and climatological data for the State of Wyoming. WRDS is funded by the **Water Resources Maps and GIS Data - USGS Water Resources** The Department provides several tools for accessing data related to managing Oregon's water resources. These tools attempt to provide both search capabilities **Water Resources: USGS Water Data Discovery** The term Water resources used in AQUASTAT for total water flow statistics

Based on available data, the only study that AQUASTAT was able to conduct so **Water resources - Food and Agriculture Organization of the United** The Department of Environment, Land, Water and Planning (DELWP) of Victorias water resources through a number of programs and partnerships. Data and information on community water monitoring is available at: **Global Water Forum Data and Tools Water Data Library Home - California Department of Water Resources** Access to Hydrologic Data for California. a map such as the name of a city, park, landmark, lake, water feature, or zip code within California. **Water Resources Data System** Discover scientific data, information and tools that assist in planning and protecting our water resources. **Water Resources of the United States Annual Water Data Reports** The GWF supports the sharing of water data and its use in developing informed opinion. As such, this page links to resources containing freely accessible water **Water Resources Department Tools and Data - State of Oregon Water Resources Information System - India-WRIS** Water Resources Data.

APPENDIX 1. 139. FIGURE A1.1. Actual Renewable Water Resources per Capita, by Region. 0. 5. 10. 15. 20. 1,000 meters³/year. 25. 30. **Surface Water Resource Data for Minnesota - MnGeo** The Water Resources Division of the U.S. Geological Survey, in cooperation with local and Federal agencies obtains a large amount of data **Water - Statistics.** USGS water data and statistics are used by other agencies to estimate future conditions and to assess risks such as flooding and drought. Planners and engineers use USGS water data, statistics, and other data for design of systems for water supply, flood control, environmental protection, and recreation. **NC DEQ: Water Resources Data, Statistics and Maps** Water resources data are published annually for use by engineers, scientists, managers, educators, and the general public. These archival **Sitemap - Water Resources Data System** Here you will find resources related to the effects of climate change on water resources, as well as other water-related environmental and societal themes. **Water Data & Tools - Province of British Columbia** The Water Boards Surface Water Ambient Monitoring Program (SWAMP) is hosting the 2nd Annual Water Quality Health Indicator and Data Science **Data Sets World Resources Institute** Annual Water Data Reports. Water Resources Data reports were published annually for many decades for use by engineers, scientists, These enable users to retrieve Division of Water Resources water data contained within HydroBase including streamflows, lake levels, water rights, diversion **Data Search - Colorado Division of Water Resources** Water Resources Data System Database Disclaimer. The WRDS group does not certify the quality or accuracy of the data within the database because the **Water Resources Data Puerto Rico and the U.S. Virgin Islands** Maps DEQ GIS Online (find online maps, apps, and downloadable data)
